The **underfloor heating** system provides ideal indoor comfort in all seasons, and the mains water filtration infrastructure ensures constant access to **clean and healthy water**. **With 24/7 security services and open parking areas**, peace of mind and safety are always by your side.

Landscaping

At Seyir Konakları, the meticulously designed landscape areas filled with every shade of green offer a peaceful lifestyle where you can unwind and relax. Walking paths, resting spots, and the natural texture of the surroundings invite you into the heart of nature.

Solid Ground Structure and Earthquake-Resistant

Luxury Housing

Seyir Konakları has been designed in accordance with the 2018 Turkish Earthquake Code (TBDY-2018), built on rock and ZC-class ground with high engineering standards. Maximum earthquake safety has been ensured through modern analysis methods, with durability prioritized at every stage — from soil surveys to structural calculations.

A New Living Experience with Horizontal Architecture

At Seyir Konakları, a refreshing lifestyle awaits you with spacious living areas, wide scenic views, and a life in harmony with nature, all shaped by a horizontal architectural approach.

Far from towering skyscrapers and surrounded by open horizons, this design prioritizes both your comfort and quality of life.

Investment Advantage

This project offers an outstanding investment opportunity with its central location and modern lifestyle amenities.

Situated in the developing area of Ezine and close to surrounding natural attractions, it is an appealing option both for living and rental purposes.

With its horizontal architecture, expansive green spaces, and tranquil atmosphere, this project is a valuable investment that continues to grow in worth day by day.
